Profile Summary

Software Engineer specializing in backend development using **Python, Django, and Django REST Framework**. Experienced in building scalable APIs, authentication systems, and database-driven architectures. Strong problem-solving skills with hands-on experience in **PostgreSQL, Docker, and Cookiecutter Django**. A quick learner passionate about creating reliable and efficient backend systems.

Work Experience

Intern Software Engineer - Vervelo Pvt. Ltd.

Oct 2025 – Present | Pune, India (Remote)

- Developing backend features and REST APIs using **Python, Django & DRF**.
- Implementing **authentication**, role-based permissions, and optimized API workflows.
- Working with **Cookiecutter Django** for modular architecture and reusable app structures.
- Managing **PostgreSQL**: schema design, migrations, and query optimization.
- Using **Docker** for containerized development; collaborating via **Git** (branching, PR reviews).
- Contributing to client projects through features, bug fixes, and backend optimization.

Educational Qualification

- **Bachelor of Computer Science (BCS)**
Hi-Tech College of Management & Computer Science, Aurangabad, Maharashtra.
June 2025 | Distinction (79.2%)
- **Higher Secondary Certificate (Science)**
Raja Shivaji Junior College, Aurangabad, Maharashtra
June 2021 | Distinction (89.83%)
- **Secondary School Certificate**
Shahid Bhagat Singh High School, Aurangabad, Maharashtra
March 2019 | Distinction (83.80%)

Certifications

- **Python Development Certification** – PySpiders (Python Training Institute)
Completed: 11th Oct 2025
Completed professional training covering Python, SQL, Django and APIs.
- **Data Analytics Job Simulation** – Forage (Deloitte)
Completed: 5th May 2025
Completed tasks in data analysis and forensic tech in a real-world simulation.

Projects

- **MedScan — Intelligent Prescription Analyzer**

Jan 2025 – Mar 2025 | Machine Learning

A prescription-reading system using a fine-tuned **TrOCR model** to extract handwritten medicine details and fetch structured data from **MySQL**, with a clean interface built using **PyQt**.

My Contributions:

- Implemented exception handling for improved stability.
- Managed **MySQL database connectivity** and maintained structured medicine data.
- Wrote optimized **SQL queries** to fetch and display medicine information.
- Collaborated with the team to integrate the **TrOCR model** with the application's interface.

Tools & Technologies: Python, TrOCR, PyQt, MySQL

- **SocialSphere API — Social Media Backend Platform**

Oct 2025 – Nov 2025 | Backend / Django REST Framework

A backend-only social media platform built using **Cookiecutter Django**, featuring user authentication, posting, commenting, and nested replies using **Django MPTT**. All operations are fully API-driven with proper permission handling and database storage.

My Contributions:

- Developed REST APIs for post creation, updates, and retrieval for authenticated users.
- Implemented a comment and nested reply system using **Django MPTT** for structured thread hierarchy.
- Integrated **token-based authentication**, role-based access control, and permission handling.
- Designed relational database models and managed data storage using **PostgreSQL**.
- Built modular, reusable backend components using **Cookiecutter Django** architecture.

Tools & Technologies: Python, Django REST Framework, Django MPTT, Cookiecutter Django, PostgreSQL/MySQL

Technical Proficiency

- **Languages:** Python, SQL
- **Backend & Frameworks:** Django, Django REST Framework, Django-MPTT, Cookiecutter Django
- **API Development:** CRUD APIs, **Authentication**, **Permissions**, Role-Based Access Control, Serialization, Swagger (API Testing & Documentation).
- **Databases:** PostgreSQL, MySQL, SQL+

- **Python Concepts:** OOPs, File Handling, Exception Handling, Comprehensions, Generators
- **Libraries:** Pandas, NumPy
- **Tools & DevOps:** Docker, Git, Power BI
- **IDEs:** VS Code, PyCharm, Android Studio
- **AI Tools:** ChatGPT, Gemini, DeepSeek
- **Problem Solving:** Solved 210+ problems – leetcode.com/u/Digamber_Lohar

Soft Skills

- Problem Solving
- Analytical Thinking
- Presentation & Communication
- Team Management & Collaboration
